INSPIRED BY COLOR

Colors have been inspiring designers since the beginning. They could be considered one of the most crucial assets in any designer's toolbox. The new EFI VUTEk H3 LED Ultradrop Digital Printer is our crucial asset in making sure the colors designers use remain vibrant and accurate. This 10 ft. superwide-format, hybrid, inkjet printer is reliable and produces some of the best quality printing available on the market. Some of its capabilities include a print resolution up to 1200dpi, four or eight color modes, patented white print technology, and up to a nine-layer print capability in a single pass. Our team is committed to developing new printing methods to allow a designer to make their creative color vision become a reality.

"The **difference** in the **value** of our **products** is not determined by the **tools** we use, but by the **distinction** of how we **utilize, innovate,** and constantly seek **creative solutions** with these tools in every project **we do.**"

–Chris Heinly
President & CEO

REDNER'S FRESH MARKET

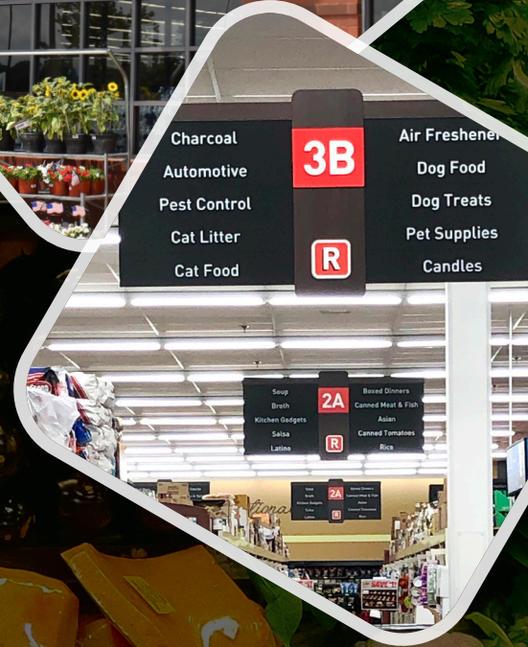

Wyomissing, PA

Redner's Markets Inc. project consisted of a series of overhead and isle indication signage for the Bakery, Dairy, Produce, Surf & Turf, Candy, Prepared Food, and many other sections of the grocery store. Our in-house print team printed both customized light and dark wood grain finishes for the 22-foot rolling pin, 29-foot produce bulkhead, 22-foot dairy bulkhead, and 6-foot aisle markers on the new printer. The 28-foot illuminated primary exterior sign was also printed on the new EFI VUTEk printer to create that eye-capturing red and green for the new "fresh market" experience.

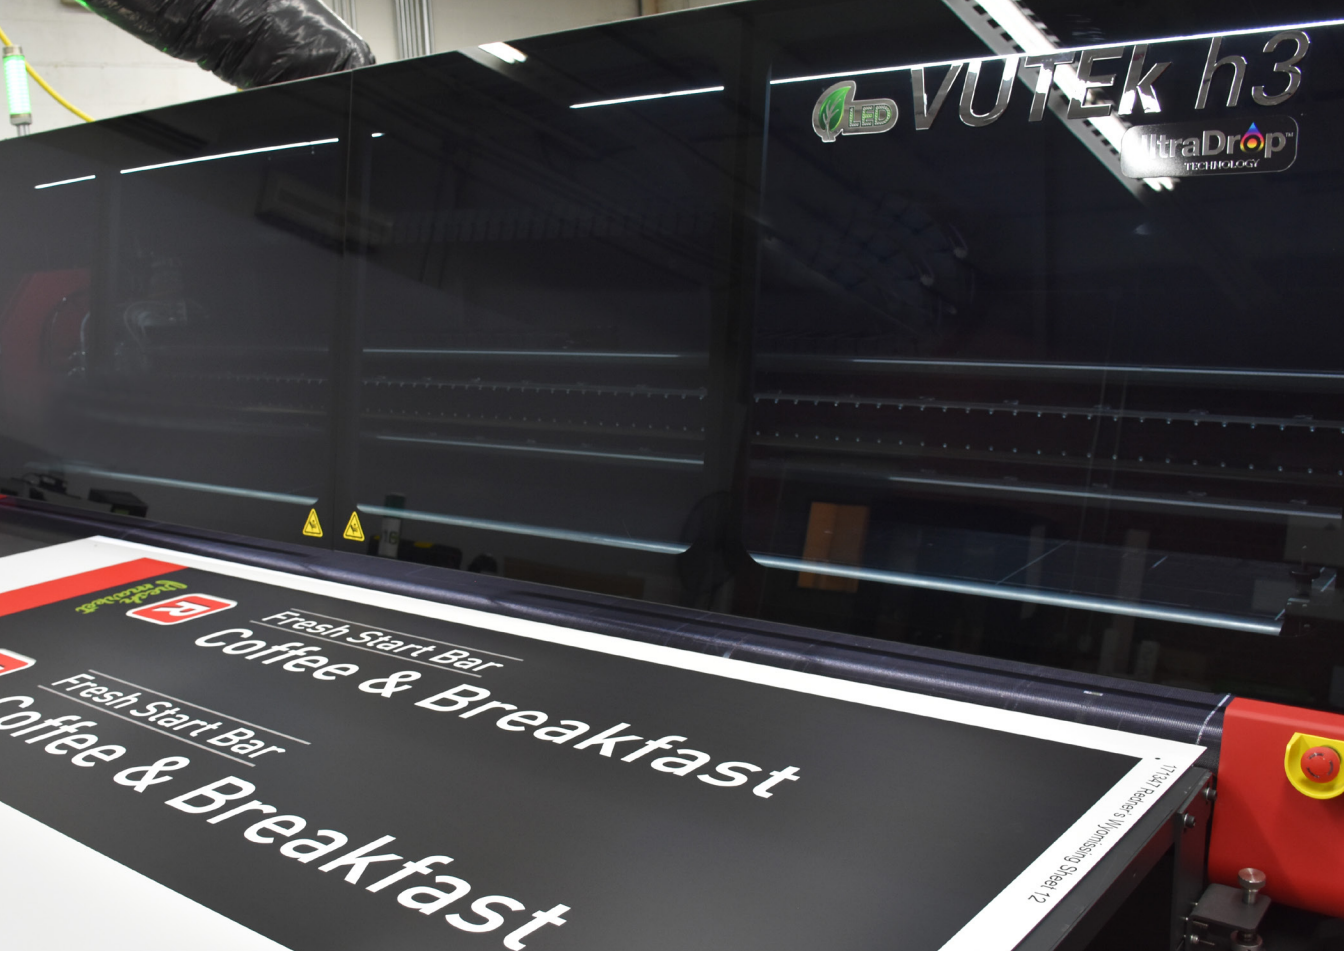

WIGLE WHISKEY

Pittsburgh, PA

L&H Companies was contracted to execute Chute Gerdeman's design for Wigle Whiskey, producing unique and customized wall graphics on wood and brick walls to create two astonishing 25-foot wall murals. The colorful vinyl graphics were printed on our new EFI VUTEk H3 LED printer, ensuring the highest color quality, performance, and durability consistency. The wall mural was reflective of their brand, so it was imperative that L&H kept a vivid color consistency to build a true experience for their customers. To complete the wall mural, an illuminated logo sign cabinet was centered in the middle to display their brand mark for all to see.
