

INNOVATIVE SIGNAGE

Solutions

precision waterjet

Using our Flow Mach Waterjet, we fabricated two identical panels that lined up perfectly creating a seamless view on several directional signs and a 30 ft. pylon sign for ASU.

flush-mount panel system

Our new flush mount panel system uses a specific milling and cutting method, allowing for the top panel to be fastened with two invisibly small screws making it interchangeable.

our patented patient care sign

Our patented Patient Care Sign was designed to help improve communication among caregivers. With reliable and consistent icons on locking tabs, no message is misplaced.

vutek consistent color

Our EFI VUTEk printer maintained the robust red of the Atlanta Falcons brand across all of their signage offering impeccable accuracy in both the color and design.

Maintaining the Falcon's "Red"

Mercedes-Benz Stadium is a brand new retractable-roof, multi-purpose stadium in Atlanta, Georgia, that will serve as the home of the Atlanta Falcons of the National Football League (NFL) and Atlanta United FC of Major League Soccer (MLS). L&H Companies was awarded the directional exterior and interior signage for this project designed by HOK.

The Atlanta Falcons had a very robust red and detailed pattern they wanted to remain consistent across every interior sign for the new Mercedes-Benz Stadium. Using our advanced printing system, the EFI VUTEk GS3250LX Pro Led Printer, we were able to offer impeccable accuracy in both the color and design while cutting the production time in half.

TOWER HEALTH

SOUTHEASTERN PENNSYLVANIA

Innovation Breeds Innovation

Tower Health brings together more than 11,000 team members, 2,000 nationally recognized physicians, specialists and providers across 65 convenient locations. The new name, Tower Health, reflects their collective strength, innovative spirit and bold commitment to taking healthcare to new heights. Matching this commitment in their signage, L&H Companies used many innovative techniques, including the newly invented flush mount panel system. This product is limitless in design giving designers, architects, and clients the ability to originate a sign system that is truly innovative. Working closely with Cloud Gehshan, the design firm on the project, L&H Companies manufactured the signage for both the exterior and interior of the Reading Hospital, as well as, the exterior signage on the remaining five hospitals.
